

Global Leader in Provision of Recognised Test Solutions

Client Reaction to the Value Provided by Our Solutions for Formal Certification and Type Approval Testing

ICC Solutions Limited is the only test tool provider able to offer a complete set of fully qualified test scripts for all formal Payment Association certifications (INTERAC, TIP for MasterCard, Visa ADVT and ADVT qVSDC Device Module) in addition to EMV Level 2 type approval. Additionally, these test tools can also be used during the development phase and internal quality assurance testing in readiness for the formal certification process. Laboratories and Payment Associations will only recognise results from approved Certification Tools!

Our test tools for device and card, both contact and contactless, are used comprehensively over the globe for formal certification, type approval and acceptance testing. The client reaction below reflects the value provided by our test tools.

EMVCo & Visa Accredited Laboratories

"As an experienced testing laboratory, we have been working with ICC Solutions for more than 9 years. Over the course of this period, we have been using ICCSim test tools for both card and terminal testing. Both have proven to be excellent and extremely robust tools, thus helping our company establish its business worldwide. And whenever the slightest issue showed up, ICC Solutions' support has always been fast, efficient and priceless."

Applus, Spain - Mr Francisco Congregado, ICC Product Manager

"RFI has been using ICC Solutions' comprehensive contact and contactless applications test suites for cards and terminals for several years for formal certification testing. RFI is particularly pleased with ICC Solutions' great expertise in EMV and Visa applications and the very reactive technical support team. The new version of ICC Solutions' test platform is very efficient and has help RFI to optimise the time for performing testing services."

RFI, UK - Mr Jean-Luc Khaou, RFI Smart Manager

"It is a good opportunity for us to work with tool experts such as ICC Solutions and use their various products in our laboratory. With the help of ICC Solutions' support team, we hope to better assist our clients and provide quality testing services."

ICTK, Korea - Mr Sangjun Hong, Manager Product Certification Department

MasterCard Worldwide

"We are pleased that the tool offered by ICC Solutions, a recognized player in the chip testing market, is qualified as part of the MasterCard program. This qualification broadens the offer of test tools available to MasterCard acquirers for use in the Terminal Integration Process. We are confident that MasterCard acquirers will directly benefit from this qualification."

Christian Delporte, Head of Chip Product Development, MasterCard Worldwide

Visa Inc

"Visa recognizes the commitment and technical innovation provided by ICC Solutions over the past 10 years. During this period, ICC Solutions has developed certification test solutions to support successful EMV chip technology implementations and helped ensure that reliable and interoperable test solutions were made available to both Visa and the payment industry at large".
