

L3 Test Selection Engine (L3 TSE)

We are now qualified to offer the L3 TSE Component as part of EMVCo's L3 initiative.

Their L3 Testing Framework was introduced to examine the L3 testing process consisting of three components:

- L3 Test Selection Engine (L3 TSE)
- L3 Test Tool (L3 TT) Engine
- L3 Card Simulator (L3 CS)

Our industry recognised test suites come fully equipped to support all three parts of the L3 platform, and are able to support the Payment Brands L3 projects as required.
