## ICC Solutions Gives Customers Greater Contactless Diversity

In an ever evolving payments landscape, ICC Solutions, the leading provider of payment testing solutions, has added the JCB Contactless test suite to its portfolio. Sitting within the globally popular ICCSimTMat Terminal Test suite product range, JCB Contactless gives ICC Solutions partners more choice by offering another brand qualified testing solution.

The JCB Contactless suite offers merchants and consumers speed and ease at the check out when making and accepting small amount transactions around the world. In addition to consumers making payment using their JCB Contactless card and mobile phone, it can be used on a variety of wearable devices.

Marc Regan, Acquirer Team Manager at ICC Solutions, commented “The addition of the JCB Contactless EMV Level 3 test suite shows our commitment to the ever growing contactless and mobile payment market globally. The Contactless JCB test suite will give our customers more brand choice to meet their contactless testing requirements”.

ICC Solutions Limited has been at the forefront of the secure payments testing services and certification space for over 20 years. We offer an extensive product portfolio comprising qualified test suites for contact and contactless terminal testing covering EMV Level 2 and Level 3, a broad range of test cards plus testing and certification services. Our tools are qualified for all the major payment brands including Mastercard, Visa, American Express and Discover and span the full testing path from initial testing to certification, quality assurance and regression testing. Our dedicated team is passionate about our products and services which, combined with exporting to over 60 countries, ensures that we can fully assist our customers no matter their location or industry sector.
