

ICC Solutions Limited is a global leader in the provision of EMV test tools and services offering the complete set of qualified test suites for payment brand accreditation of contact and contactless EMV terminals (American Express, Discover, INTERAC, JCB, Mastercard, Visa), in addition to EMVCo type approval.

Our stand alone contact and contactless certification device test suites are used worldwide by Payment Networks, Terminal and Card Vendors, Test Laboratories, Acquirers / Processors and Merchants / Retailers, enabling development, quality assurance and regression testing in addition to formal merchant certifications.

Main Features

ICCSimTMat features a powerful user friendly interface that enables very efficient test campaigns, offering exceptional value and are designed to be totally self-contained with no other components required. Automated import / export, analysis tools and user friendly features enable efficient and effective testing with transaction logs easily captured, without the need for complex hardware, restrictive card adaptors, separate spy software or huge card decks.
